BioTime 5S

Fingerprint	TCP/IP	USB Host	RFID Card	Access Control	Battery

Multi-Biometric

T&A and Access Control Terminal

BioTime5S is a specialized security & protection system device facing towards small and medium enterprises, it integrates multiple functions such as fingerprint identification, access control and attendance record, reliable quality, multi-language system, human-machine interface, excellent communication function, comprehensive software for background data processing. It good applicability and excellent performance. This product is applicable to office building, warehouse, confidential department, archives, computer room and intelligent residential district.

SPECIFICATIONS :

Display
2.8" TFT LCD

Fingerprint sensor
Optical fingerprint scanner

Fingerprint collecting area
17mm * 19mm

Fingerprint capacity
1,000

Card capacity
1,000

Transaction storage capacity
1,00,000

Identification mode
Finger, Card & Pin

Verification mode
Fingerprint, Card, Password, Password+Fingerprint, Fingerprint+Card

Identification time
0.5

FAR
< 0.0001%

FRR
< 0.01%

Communication interface
RS485 & TCP/IP, USB flash disk, USB

Auto Push Technology
Yes

Operating voltage
DC 12V

Wiegand
Wiegand in/out

Operation temperature
0 C ~ 50 C

Dimensions
140mm * 105mm * 35mm
