

RD-30

Wireless video intercom solution. Slinex RD-30 is an ideal solution for those who are thinking about installing an intercom after the finished repair in the apartment or a country house.

RD-30 kit includes an outdoor panel and a handset. Installation of the wireless video intercom does not require special skills, so you can install it even by yourself. You can use both an external power supply DC12V and a Li-Ion battery as power for the outdoor panel.

Slinex RD-30 harmoniously combines functionality, modern design and affordable price.
