SLINEX

SL-07IP

7" color TFT screen 16:9
the latest world design trends

Slinex SL-07IP is a balanced mix of stylish design and modern functionality.

The monitor could be easily controlled with the application on your smartphone.

The body, made of aluminum and glass, gives the device a presentable appearance and extends its lifetime. There is a microSD port, the intercom supports cards up to 32 GB. A built-in Wi-Fi allows the customer to connect SL-07IP to the cloud and view real-time video from the outdoor panels from a smartphone or a tablet. It is also possible to get access to the video archive remotely through the Slinex application on your mobile device.
