Overview

Mantra's 7" LI AEBAS Device MBAS40 is engineered for high-accuracy biometric identification, combining advanced algorithms with a PIV/STQC LI-certified MFS110 scratch-free optical fingerprint sensor and an 8MP facial recognition system. It is ideally suited for Aadhaar-enabled time attendance tracking across government and enterprise environments.

Designed for wall-mount deployment, the MBAS40 features a scratch-resistant capacitive touchscreen with toughened glass for durability in high-traffic settings. Its efficient thermal management ensures stable performance even during continuous operation. With dual biometric authentication—fingerprint and face recognition—the device delivers secure, reliable identity verification.

Equipped with built-in 4G LTE, Ethernet, Wi-Fi, and GPS, the MBAS40 offers seamless connectivity. The integrated 6,000 mAh rechargeable battery with auto sleep and wake-up functionality supports extended usage, making the device a dependable solution for uninterrupted attendance and access control operations.
