

MIVANTA

PAN INDIA B2B DISTRIBUTION NETWORK

India's leading **physical
and electronic security**
channel distribution platform.

Director's Vision

At Mivanta India Private Limited, our vision is to build a future where technology is not just accessible, but meaningful, reliable, and growth-driven for every business we serve.

India is evolving rapidly, and so are the needs of enterprises, system integrators, and channel partners. My belief is simple yet powerful — technology should simplify operations, enhance security, and create long-term value, not complexity. At Mivanta, we strive to be more than a product supplier; we aim to be a trusted technology partner for our customers and channel ecosystem across the country.

Our focus has always been on strong fundamentals — quality products, transparent business practices, robust after-sales support, and deep engagement with our partners.

Equally important is our belief in people. We invest in nurturing talent, empowering our teams, and creating a collaborative culture where integrity, accountability, and customer success come first. A strong organization is built not only on technology, but on trust — trust within brands, teams, with partners, and with customers.

As we move forward, Mivanta will continue to expand its footprint, strengthen its channel network, and adopt emerging technologies that support India's digital growth story. Our journey is guided by a clear purpose — to deliver dependable solutions, sustainable growth, and lasting relationships.

Together with our partners and customers, we are building Mivanta as a brand that stands for innovation, reliability, and long-term value creation.

Mr. Purvesh Shah

Director Of Mivanta India Private Limited

About Us

MIVANTA is one of India's rapidly growing channel distribution platforms specializing in advanced electronic security and automation solutions. With a strong commitment to innovation, reliability, and customer satisfaction, MIVANTA has built a trusted reputation among distributors, system integrators, dealers, and enterprise customers across the country.

Backed by the expertise and legacy of MANTRA, MIVANTA delivers a comprehensive portfolio of world-class products and technologies under one platform. The company provides end-to-end solutions in Time Attendance Systems, Access Control, Biometric Solutions, RFID-UHF Technologies, Intrusion Alarm Systems, Home Automation, Aadhaar-based Solutions, and various security accessories designed to meet the evolving demands of modern businesses and institutions.

MIVANTA's strength lies in its strategic partnerships with leading technology brands, enabling it to offer certified, scalable, and future-ready security solutions with assured quality and performance. Through a strong nationwide distribution network and dedicated technical support team, the company ensures seamless delivery, implementation, and after-sales service support for every customer and partner.

With deep industry knowledge and continuous research-driven innovation, MIVANTA empowers organizations to adopt smarter, safer, and more efficient systems. The company believes in building long-term, value-driven relationships by supporting partners with expert guidance, marketing assistance, business growth opportunities, and responsive customer service.

Its flagship brand, MORX, has emerged as a trusted name in the biometric and RFID-UHF industry. MORX offers a wide range of intelligent security products and access control accessories that combine advanced technology with user-friendly functionality. With a network of more than 5,000 partners and a growing base of satisfied customers, MORX continues to strengthen its position as a reliable and innovative security solutions brand in India.

As a customer-centric organization, MIVANTA focuses on delivering not just products, but complete business solutions that help organizations improve operational efficiency, strengthen security infrastructure, and achieve sustainable growth. The company's mission is to enrich partner success through cutting-edge technologies, create new benchmarks in trust and credibility, and establish a mutually beneficial ecosystem for long-term business development.

Driven by core values such as quality, integrity, commitment, and excellence, MIVANTA continues to redefine standards in the digital security domain while expanding its footprint across India with advanced, scalable, and dependable technology solutions.

Time Attendance & Access Control Solution

mBio G1

- 2.4" Color TFT Screen
- 1,000 Fingerprint/Card/Pin
- 1,00,000 Transactions
- Identification Type Finger/Card/Pin
- Communication : TCP/IP, USB
- Push Data Technology : Yes
- Inbuilt Battery Backup

BioTime 16

- 2.4" Color TFT Screen
- 1,000 Fingerprint/Card/Pin
- 1,00,000 Transactions
- Identification Type: Finger/Card/Pin
- Communication: PENDRIVE
- Push Data Technology: NO
- EXCEL OUTPUT

BioTime 5N

- 2.8" Color TFT Screen
- 3000/5000 Fingerprint/Card/Pin
- 1,00,000 Transactions
- Identification Type: Finger/Card/Pin
- Communication: TCP/IP, USB (WIFI/GPRS optional)
- Push Data Technology: Yes
- Inbuilt Battery Backup

BioTime MR110

- 2.8" Color TFT Screen
- 2,000 Fingerprint/Card/Pin
- 2,00,000 Transactions
- Identification Type : Finger/Card/Pin
- Communication: TCP/IP, USB
- Inbuilt Battery Backup
- Push Data Technology: Yes
- EXCEL OUTPUT

mBio-ST1

Standalone with Wiegand

- 1,000 Fingerprint/Card/Pin
- 1,00,000 Transactions
- Identification Type: Finger/Card/Pin
- Pen drive Communication
- Support Wiegand26/34 Card Reader
- Without Power Adaptor (12v 2amp)

mBio-ST2

Standalone with Wiegand

- 500 Fingerprint/Card/Pin
 - Identification Type: Finger/Card/Pin
- Without Power Adaptor (12v 2amp)

SEM03

- Card and Pin based Access Control
 - Standalone with Wiegand
 - 500 Card/Pin
- Without Power Adaptor (12v 2amp)

FA200 LD

- 3.5" Color TFT Screen
- 1500 Face, and 1500 Cards
- 3,00,000 Transactions
- Identification Type: Face/ Card
- TCP/IP
- Push Data Technology: Yes

BioFace MSD1K

- 2.8" Color TFT Screen
- 1000 Face, Card, 5000 Fingers
- 3,00,000 Transactions
- Identification Type : Face/Finger/Card/Pin
- TCP/IP & USB
- Push Data Technology : Yes
- Inbuilt Battery Backup

BioFace MSD1KW

- 2.8" Color TFT Screen
- 1000 Face, Card, 5000 Finger s
- 3,00,000 Transactions
- Identification Type : Face/Finger/Card/Pin
- WiFi, TCP/IP & USB
- Push Data Technology : Yes
- Inbuilt Battery Backup

BioFace MSD2K

- 2.8" Color TFT Screen
- 800 Face, 3000 Fingers, 3000 Cards
- 3,00,000 Transactions
- Identification Type : Face/Finger/Card/Pin
- TCP/IP & USB
- Push Data Technology : Yes
- Inbuilt Battery Backup

WebPass (In-Built HTTP Server)

- IP65 Outdoor weather proof reader controller
 - 20,000 Cards (Proximity/Mifare)
 - 65,535 Transactions
 - Identification Type: Card/Pin
 - Communication: TCP/IP, Wiegand (26/34 bit)
 - Built-in http server
- Without Power Adaptor (12v 2amp)

BioWeb-C2

- 2.8" Color TFT Screen
 - 9,590 Fingerprints & 20,000 Cards
 - 65,536 Transactions
 - Identification Type: Finger/Card/Pin
 - Communication: TCP/IP, RS485, Wiegand
 - Built-in http server
 - Push Data Technology: Yes
- Without Power Adaptor (12v 2amp)

BioWeb-RC1

- IP54 In/Outdoor weather proof Access Control
 - 9,590 Fingerprints & 20,000 Cards (Opt: Mifare)
 - 51,968 Transactions
 - Identification Type: Finger/Card
 - Communication: TCP/IP, RS485, WG 26/34 out
 - Built-in http server
 - Push Data Technology: Yes
- Without Power Adaptor (12v 2amp)

Mivanta offers a wide range of access control accessories like fixtures and fittings to complete its product line that includes switches, remote control, locks, and brackets.

RFID-UHF Solution

Inventory Management

Inventory Management using RFID. RFID labels are attached and read using RFID readers, portals, handhelds, sleds and are printed with RFID printers.

IT Asset Management

RFID asset tracking is an accurate and secure way to track your physical assets using RFID technology and hardware such as readers and tags.

Sugar Industry

RFID solution automates the vehicle tracking and data updates in near-real-time and generates receipts at the point of entry for farmers.

RFID Weighbridge Automation

Transform your weighing operations with our advanced RFID Weighbridge Solution-accurate, transparent, and fully automated for maximum efficiency.

RFID Race Time Solution

Achieve world-class race timing accuracy with our RFID-Based Timing Solution-fast, reliable, and built for marathons, cycling events, and mass participation sports.

Solid Waste Management

RFID based solid waste management system can transform waste management by enhancing efficiency, cost-effectiveness, and sustainability.

Smart Parking

Parking Control System is a control and monitoring system designed for use at residential condominiums, gated communities, business parking garages, university parking areas, and hospitality or retail centers.

School Attendance

RFID School Attendance time tracking for teachers and students. RFID Attendance Solution it is a complete time-tracking solution.

Warehouse Management

Eliminate manual data processes: using RFID tagging in your warehouse through Mivanta RFID hardware and tags.

■ UHF Integrated Reader

MORX CR32

Premium Long Range Reader

15-18 Meter Reading Range
Mask Mode (No Controller Needed)
Direct Boom Barrier Connection

MORX CR20

Ultra Long Range Performer

20-25 Meter Range
Light & Buzzer Alerts
Ideal for Warehouse & Weighbridge

MORX CR15

Mid Range Smart Reader

10-12 Meter Range
Secure Tag Reading
Boom Barrier Integration

MORX CR06

Mid Range Smart Reader

5-6 Meter Range
Compact & Cost Effective
Direct Boom Barrier Link

YOUR DIGITAL IDENTITY

Aadhar Solutions

Aadhaar is a biometric resident identification program from the Govt. of India. It aims to empower the citizens of India with a unique identity by building a digital platform for the authentication of an individual at any time and at any place. It helps to access government services related to various welfare schemes in education, banking, health care, agriculture, insurance, telecom, and other sectors.

MATISX

- Simultaneous Dual IRIS Capture
- Auto capture mode with built-in quality check
- Supports Windows x86 and x64, Linux

MORPHS

- Single flat finger image capture
- Registers four finger slaps & two thumbs
- Scratch free sensor surface

MBAS10/20

- Scratch Free Optical FAP10 L1 Sensor
- 8GB Flash + 1 GB RAM
- 5MP Auto Focus Front Camera with Flash LED

MIS100V2

- Lowest FAR and FRR
- STQC Certified Product
- Supports Windows, Linux & Android OS.

MARC 10

- Advanced Capacitive Sensor
- 0.040 Kg Approximate Weight
- Scratch Free Sensor Surface

MFS 110

MFS110 is an elegant fingerprint device used for identification, verification and authentication processes of an individual. MFS110 offers secured biometrics data, error-free and reliable identification based on unique fingerprint biometric technology. It is fast & easy-to-use. It can be used as an alternative or a complement to those hard-to-remember passwords.

Scratch free sensor surface

High speed USB 2.0 interface with secured communication

MINEX Compliance extractor

Auto Finger Detection

Lowest FAR and FRR

500 DPI optical fingerprint sensor

Support Windows, Android, Linux

STQC / Aadhaar Certified

Wireless radio signal range extender

ReX 2

Wireless radio signal range extender supporting Jeweller & Wings protocols

DoorProtect

Wireless opening detector

DoorProtect Plus

Wireless combined opening, shock & tilt detector

MotionProtect

Wireless IR motion detector

MotionProtect Plus

Wireless IR motion detector with an additional microwave sensor

CombiProtect

Wireless IR motion & glass break detector with a microphone

MotionCam

Wireless IR motion detector supporting the photo by alarm feature

MotionCam (PhoD)

Wireless IR motion detector supporting photo by alarm, photo on demand, photo by schedule & photo by scenario features

MotionProtect Curtain

Wireless IR curtain motion detector for indoor use

Curtain Outdoor Mini

Wireless dual-technology curtain motion detector for outdoor and indoor use

Curtain Outdoor

Wireless dual-technology curtain motion detector for outdoor & indoor use

DualCurtain Outdoor

Wireless outdoor bidirectional curtain IR motion detector

MotionCam Outdoor

Wireless outdoor motion detector with a photo camera to verify alarms

MotionCam Outdoor (PhOD)

Wireless outdoor motion detector that takes photos by alarm, by schedule, by scenario & on demand

MotionCam Outdoor HighMount (PhOD)

Wireless outdoor motion detector that takes photos by alarm, by schedule, by scenario & on demand. For installation at a height of 2-4 m

■ Wireless Intrusion Alarm System

MotionProtect Outdoor

Wireless IR motion detector for outdoor & indoor use

Hood

For MPO to protect anti-masking system from rain & snow

GlassProtect

Wireless glass break detector with a microphone

LeaksProtect

Wireless water leak detector

FireProtect

Wireless fire detector with heat & smoke sensors with sounder

FireProtect Plus

Wireless fire detector with heat, smoke & CO sensors with sounder

FireProtect 2 RB

Wireless detector with replaceable batteries

Model Variants :

- (Heat) : Heat detector
- (Heat/Smoke) Heat & Smoke detector
- (Heat/Smoke/CO) : Heat, Smoke & CO detector

FireProtect 2 SB

Wireless detector with sealed batteries

Model Variants :

- (Heat) : Heat detector
- (Heat/Smoke) Heat & Smoke detector
- (Heat/Smoke/CO) : Heat, Smoke & CO detector

ManualCallPoint (Red)

Wireless resettable button for manual fire alarm activation featuring programmable scenarios

ManualCallPoint (Blue)

Wireless resettable button for manual fire alarm activation featuring programmable scenarios

LifeQuality

Wireless temperature, humidity & CO2 monitor

Button

Wireless alarm button / smart button

Holder

Bracket to fix Button on surfaces

KeyPad

Wireless touch keypad to arm/disarm an Ajax security system

KeyPad Plus

Wireless touch keypad supporting authentication via Tag & codes

KeyPad TouchScreen

Wireless keypad with touch screen to control an Ajax system

Tag

Contactless key fob to control security modes

WallSwitch

Wireless Power relay to control 110/230 V~ power supply remotely

Relay

Wireless Dry contact relay to control 12-24 V power supply remotely

DIN Holder

Bracket to fix Relay or WallSwitch on a DIN rail

Socket

Smart plus with energy monitor

12V PSU for Hub/Rex

12 V Power supply unit for Hub/Rex

12V PSU for Hub2/Hub2 Plus/Rex2

12 V Power supply unit for Hub2/Hub2 Plus

Transmitter

Wireless module to integrate one third-party wired device into the Ajax system

MultiTransmitter

Wireless module to integrate up to 18 third-party wired device into the Ajax system

SpaceControl

Wireless Keyfob with panic button & control for security modes

HomeSiren

Wireless indoor siren with an LED connector

StreetSiren

Wireless siren with LED frame for outdoor & indoor

StreetSiren DoubleDeck

Wireless outdoor siren with a clip lock for a branded faceplate

Brandplate

Faceplate for branding on StreetSiren DoubleDeck

Technologies

Wireless communication

Jeweller

- Transmission of commands, alarms, and events
- Automatic power control to reduce power consumption
- Frequency hopping to prevent radio interference and jamming

Wings

- Transmission of photo verifications, big data packages, and firmware updates
- Data backup in case of communication loss
- Data resend upon restored communication

Wired communication

FIBRA

- Multifunctional lines for different types of devices
- Transmission of alarms and photo verification
- Automatic line scanning
- Power consumption stress test

Video transmission technology

JetSparrow

- Ultra-fast VMS experience
- Peer-to-peer transmission
- TLS encryption
- High stability
- Live view without any

■ Superior Fibra | Wired Intrusion Protection

Hub Hybrid (2G)

Hybrid control panel works with Fibra & Jeweller devices

 Ethernet  2G

Superior DoorProtect

Wired opening detector with two reed switches

Superior DoorProtect G3

Wired opening detector with shock, tilt & magnetic masking sensors

Wired combined IR motion detector & glass break detector with microphone

Superior GlassProtect

Wired glass break detector with microphone

Superior MotionProtect

Wired IR motion detector

Superior MotionProtect G3

Wired IR motion detector with anti-masking system

Superior MotionProtect Plus

Wired IR motion detector with microwave sensor

Superior MotionCam

Wired PIR motion detector supporting photos by alarm feature

Superior MotionCam (PhOD)

Wired PIR motion detector with extended photo verification possibilities

Superior SeismoProtect G3

Wired seismic detector with additional shock sensor

Superior KeyPad

Wired touch keypad

KeyPad TouchScreen

Wired touch keypad touch screen & contactless authorization

Superior KeyPad Outdoor

Wired keypad supporting authentication via Tag, smartphones & codes. For outdoor & indoor use

Superior HomeSiren

Wireless indoor siren

Superior StreetSiren

Wired siren with LED frame for outdoor & indoor use

Superior MultiTransmitter

Module to integrate up to 18 third-party devices into Ajax system

MultiTransmitter IO (4X4)

Module with 4 inputs & 4 outputs designed to integrate third-party devices into Ajax system

Superior MultiRelay

4-channel relay with potential-free contacts to control power supply remotely

LineProtect

Module to protect devices on the Fibra line from short circuits & sabotage

LineSplit

Module to split one Fibra line into four lines

LineSupply (45 W)

Module for additional power supply with 45 W power & one output Fibra line

LineSupply (75 W)

Module for additional power supply with 75 W power & two output Fibra lines

■ Superior Fibra | Wired Intrusion Protection

Case A (106)

Casing for Ajax module

Case C (260)

Casing for Ajax module & 7Ah battery

Case B (175)

Casing for one or two Fibra modules

Case D (430)

Casing for up-to 8 Ajax modules & two 18 Ah batteries

■ Video Surveillance

DoorBell

Video doorbell with built-in AI, PIR sensor, and control via apps

IndoorCam

Indoor Wi-Fi security camera with PIR motion detector and built-in AI

BulletCam

Wired AI-powered security IP camera

Model Variants :

- BulletCam (5 MP/2.8 mm)
- BulletCam (5 MP/4 mm)
- BulletCam (8 MP/2.8 mm)
- BulletCam (8 MP/4 mm)

DomeCam Mini

Wired AI-powered security IP camera

Model Variants :

- DomeCam Mini (5 MP/2.8 mm)
- DomeCam Mini (5 MP/4 mm)
- DomeCam Mini (8 MP/2.8 mm)
- DomeCam Mini (8 MP/4 mm)

TurretCam

Wired AI-powered security IP camera

Model Variants :

- TurretCam (5 MP/2.8 mm)
- TurretCam (5 MP/4 mm)
- TurretCam (8 MP/2.8 mm)
- TurretCam (8 MP/4 mm)

Junction Box(118x59)

Mounting box for security IP Camera

NVR (8-ch)

Network video recorder for 8 channels

NVR (16-ch)

Network video recorder for 16 channels

NVR HAC (8-ch)

8-channel network video recorder with HDMI

Software

Ajax Security System. Control security and automation; receive push notifications about alarms and events.

Ajax PRO: Tool for Engineers. Monitor and administer all facilities from a single interface, add new devices, and remotely configure and test Ajax systems.

Ajax Desktop: A new desktop application designed specifically for end-users. It offers a larger screen interface, seamless access to cameras, and intuitive controls. With Ajax's signature user-friendly design, instant notifications, customizable video wall, fast responsiveness, and strong privacy protection — now available in a desktop format.

PRO Desktop. Seamlessly manage remote configuration, alarm monitoring, photo verification, staff administration, and a detailed event log in one intuitive interface.

API. Build integrated solutions based on Ajax products.

Loved by end users

Ajax security system combines the reliability of professional security equipment with the user experience of smart home gadgets. People understand how Ajax works in minutes. The latest customer satisfaction survey shows that 9 out of 10 Ajax owners would recommend the system to their friends and families.

Free and user-friendly apps

Alarms delivered via push, SMS, and calls

Free firmware updates to deliver new functionality

Over
1,500,000
people worldwide
under Ajax protection

Ready to protect any property

The Ajax system suits any interior and fits any premises. The system protects your property against burglars and instantly reacts to water leaks, fires, dangerous CO and CO2 levels.

Highlights

Reliable RF Tech

Frequency hopping, two-way communication and AES128 encryption algorithm ensure the communication's stability and security, reaching up to 2,000m in an open space.

Multiple Networking Modes

Supports Ethernet, dual-band Wi-Fi, GPRS/3G/4G network modes, and alarm push notifications via mobile apps, SMS, or phone call.

Easy App Controls

With mobile apps such as DMSS (for end users) and COS Pro (for installers), you can realize real-time reception of notifications, devices management, remote operations, and more.

Interconnection

The Hub can communicate with Dahua XVR or Dahua NVR and realize linkage as long as their networks are connected without using any software.

Residential & Hotel Digital Door Lock Solution

Dorset is a name that everyone associates with security, trust, and elegance. As one of the leading global manufacturers of door-ware, locking mechanism and glass fixtures and fittings, the journey towards earning worldwide recognition is one that has taken constant dedication to innovation, adhering to quality, and a passion for excellence.

Life Would Never be the Same When You Are More Secure

Advanced Card Systems Ltd. (ACS) is Asia Pacific's top supplier and one of the world's top 3 suppliers of PC-linked smart card readers. A leader in the smart card industry, ACS has the technology, expertise and global resources to facilitate an easier adoption of smart card applications in different industries across the globe.

Workforce Management Software for SME

Mewurk is a smart workforce management platform designed to simplify HR operations for growing businesses. From attendance and leave to payroll and shifts, everything is automated and seamlessly connected. With AI-driven insights and IoT-based biometric solutions, Mewurk improves accuracy and boosts productivity.

Centralized cloud based Time-Attendance Management system for Multiple Locations

We specialise in the design and developing of cloud-based time and attendance software systems which give you real-time access to your employees' attendance records. Whether users clock in via the mobile application, web application or through a mounted biometric device their data is instantly sent to your administration dashboard where it can be automatically compiled into a range of reports including attendance records.

Instant Access to Parents and Management for Real-Time Attendance Information of Students

We specialise in the design and developing of cloud-based time and attendance software especially for academic institutes. We provide services through RFID, face recognition and guarantee quick attendance marking on the mobile application, web application or through a mounted biometric device their data is instantly sent to your administration dashboard.

Keep track of employee time and attendance with our on-premises attendance management software.

For every organization, managing time-attendance for multiple departments, sections, designations, and grades is a paramount yet critical challenge. It becomes a cumbersome task to capture the time-attendance rules of an organisation and automate them. Paytime offers high flexibility to create an organisation structure to match its exact time-attendance hierarchy. Paytime Time-Attendance software is an on-premises intensive solution for large enterprises.
